Program Content

Strategy and Strategic Thinking

Learn the tools and frameworks for strategic decision-making. Cultivate a systematic way of thinking that enables you to develop comprehensive answers to key questions.

- Strategy vs. Business Model
- The Strategic Management Process
- External and Internal Environment Analysis
- Choosing the Right Strategy(ies)

Developing Your Business Acumen - Thinking Beyond Projects

Develop a CEO mindset that considers a wider scope. Learn the essential concepts, tools, techniques and skills needed to manage the entire business.

- Taking an inventory of your business acumen
- Identifying the business problem/opportunity
- Techniques to think strategically and critically
- Planning and implementing change

Communicating Like a Leader

Connect with stakeholders, customers, team members, senior management teams, sponsors and more by developing your own professional and thoughtful communication style.

- Presentation skills to differentiate you
- Writing skills for connecting with people
- Influencing and being heard - the first time
- Communication techniques to ensure your messages are understood and compelling

Leadership in Action

Leading effectively (colleagues, clients, and stakeholders as well as leadership, staff and management) is the key to taking your business initiatives to higher success levels.

- Develop effective leadership strategies
- Decision-making techniques that gain buy-in
- Connect with others to build solid network
- Assess your leadership style's credibility

Take your career to the next level by building the leader in you.
